

# September 17th

## Emergency Door: how businesses can tackle the health impacts of the climate crisis

a Workshop

**Who** — Fundació PIMEC & KOSMA Observatory

**When** — September 17th, 10.45-12:00

**Language** — Catalan and Spanish

Health and our planet are connected. Climate change is already here and its impact on people's health is going to be significant and growing. Our business projects are going to be affected in one way or another. In "Emergency door" -an interactive workshop- innovative entrepreneurs and a group of professionals from the world of health sciences will tutor a process of reflection and co-creation on possible business solutions to the problem of the impact of the climate crisis on the health of our organizations. Climate change is adversely affecting health, are you aware?
