

Advancing our sustainability journey through internal training and upskilling

European Sustainable Development Week, September 18 – October 8

Gunnebo's vision is to be a leading global provider of a safer future, and our mission is to create a safer world ("our Why"). Underlying these goals is the triangular relationship between security, development, and human rights, highlighting their interconnections and the relationship between our Why, the SDGs and the Declaration of Human Rights article 3: "Everyone has the right to life, liberty, and the security of person."

In our quest to continue to accelerate and advance our sustainability journey, we will hold several trainings and workshops on sustainable development under this year's ESDW. Focus will be on sustainable supply chains, sustainable human resource practices, as well as our contribution to the SDGs.
