

Join the global movement  
**SDG FLAG DAY 2023**

## Raise a flag for the SDGs!

Every year at the end of September, the SDG Flag is raised worldwide to show support for the Sustainable Development Goals (SDGs).

With the flag campaign, organisations, businesses, municipalities, schools and governments worldwide show that they are part of this global movement for a better world. Be part of this international campaign and join us on **September 25th, 2023**.

### How does it work?

1. Order your flag online (two sizes available)
2. Display your SDG Flag at your workplace, home, or in your community on September 25th (or shortly before and after that date)
3. Take a picture and share your commitment to the SDGs on social media by using the #togetherfortheSDGs

There are no limits to your creativity. You can adjust the campaign to your own needs and stakeholders and use this opportunity to create activities / events around the SDG Flag Day.
